QUALITY BOATS SINCE 1958

WHERE MEMORIES ARE CREATED

## WHERE MEMORIES ARE CREATED

Fill your life with memories. Together. Explore the cliffs, islets, and bays. Try your fishing skills in new places. Dock in a harbour and enjoy the restaurant's freshly caught shellfish. Cross the lake and have a picnic in the green grass. Cast anchor and dive from the boat into the deep blue. Speed up and watch as your friends get up on the water skis. Memories are best when shared.

CREMO 558SC

## CRAFTSMANSHIP AND ADDED VALUE

Each boat is a deftly made craft, based on our over sixty-year-old tradition of building Swedish-designed boats. Well devised and seaworthy constructions are our hallmark.

Reliability is present in every boat model that has passed tough tests. The material is strong and maintenance-free fiberglass, which can withstand harsh weather, wind and water for many years.

It also provides a good resale value on the day you choose to switch to a newer model or a larger one.

Most models have been designed by renowned boat designers such as Pelle Petterson and the engineer Christian Dejevik.

## OFFICIAL MERCURY PARTNER

As a proud official Mercury partner, every Cremo boat is tested, fine-tuned and optimized to deliver the best possible performance with Mercury engines.

This means reliable power, safe running and a perfect match between boat and engine - for a boating life that always feels stable, easy and fun.

All CREMO's boats are safety tested and CE marked, which guarantees that we deliver safe boats of good quality.

CREMOS EXCLUSIVE MOORING PACKAGE

4 fenders, 4 lines, 4 fender protectors, 2 mooring snubbers in matching design.

The pictures show some extra equipment.

CREMOs history starts in

1958

Bernt Sallén, engineer at Monark in Varberg, visits the World Fair in Milan and returns back home with the idea of creating plastic boats. The family who owns Monark says yes!

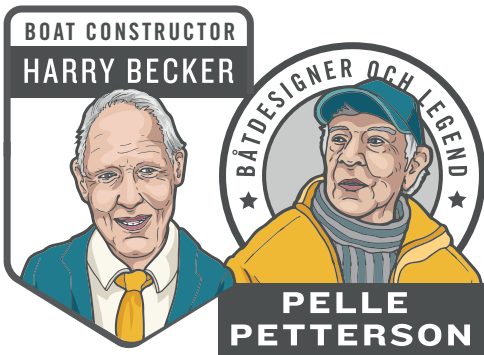

With Masonite plugs and centimetre thick layers of laminate, the first boat of Crescent/Monark is born – a three-meter-long Dinghy.

Bengt Sallén contacts Lloyd's in London, a classing society that has studied glass fibre boats and created a framework for the safety classing. The new boat **Monarita 14**, filled with sandbags, were released from 2 meters of height. The gentlemen from Lloyd's were impressed and gives their approval. Sa a signum for the boats.

The Crescent/Monark **Camping Boat** becomes a huge success in the years 1962 to 1966.

Monark's engineer **Harry Becker** starts a collaboration with the designer Pelle Pettersson, **Pelle P**, and new boat models with a fresh look were designed.

The record boat **Crescent 42** is produced in 20 000 units between 1968 and 2007.

1972

Crescent / Monark start producing boats in Poland.

**ABBA** joins as investors for a while.

1986 marks the year when Crescent/Monark's boat business sector is sold to a former director och the company **CREMO** is created.

Secure, safe boats approved by a classing society was and still are the foundation of Cremo..

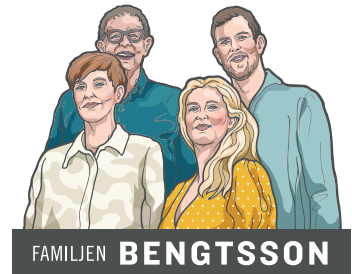

In 2006 Cremo's very own new, modern factory is ready to start producing boats at an even larger capacity than before.

# 2019

CREMO gets new owners and the journey continues where it all started. **Varberg!**

FAMILJEN **BENGTSSON**

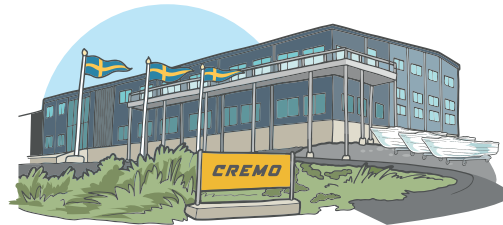

Bengtsson family invests and engage even more in the future.

# 2020

The Crescent profile changes into the new name CREMO Boats. Same trustworthy boats, but a new brand!

In 2022 all Intaga Group swedish companies are gathered under the same roof in an extended plant in Torpa/Varberg south from Gothenburg.

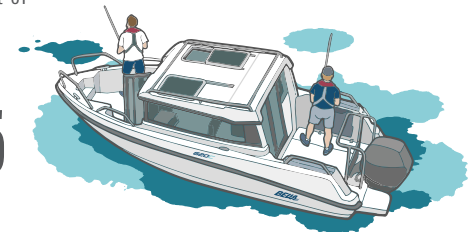

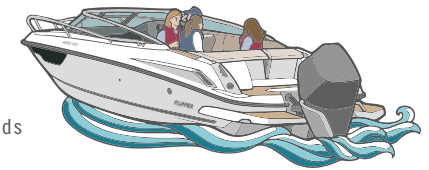

2024 expands the areas and invests in new equipments and systems in the plant in Chojnice, Poland. Employs and increase the level of capacity.

In 2025 the brands Flipper Boats, and Bella Boats becomes part of the family.

# 2025

In 2025 Cremo Boats launches the flagship Cremo 680CC and the two Bowriders 588BR and 488BR. In all eight new designs are put to the market.

## ELECTRIC OUTBOARD - MERCURY AVATOR 7.5E

The Mercury® Avator™ 7.5e electric outboard delivers speed and acceleration performance similar to a 3.5hp internal combustion outboard, making it ideally suited for a variety of small boats, tenders and as secondary power on sailboats.

Available in tiller and remote steer models, it features a quick-connect battery and intuitive controls that make setup and operation a breeze.

With advanced displays and other technologies that monitor your battery level and range, you can explore the water with confidence.

# CREMO 470R

THE OPEN AND STABLE RODDER BOAT

A long-awaited tiller boat that is unusually stable thanks to a wide hull. It is easy to drive and the strong keel means that it easily keeps the course. The 470R has several different areas of use. Due to its low weight, it is easy to handle, both in the lake and on a trailer. With a tiller for steering, you instead get lots of space in the boat and can move easily. It is built on the same proven hull as the 470 SC.

## STANDARD

- Locking pin class 3
- Smart Deck bow
- Self-drain
- Rescue ladder
- Portable seat for rowing
- 4 cleats

## STABLE AND NIMBLE COTTAGE BOAT

CREMO 470 SC is a sporty boat with side steering consol and windshield. Here you get an affordable quality boat, enjoyed by both experienced fishermen and novice boat owners due to its excellent side stability and easily wielded hull. This is our smallest motorboat in its measurements but with lots of space due to its design. In short, the perfect boat by the cabin.

# CREMO 558BR

## THE BOWRIDER MAKES LIFE SUNNY

CREMO now has a really nice Bowrider in the family. The 558BR is a popular day boat with seating both in the bow area as well as in the cockpit. The wide windshield provides good protection against the wind, and here both children and adults ride comfortably in all situations. It is easy to manoeuvre, easy to move freely in and provides an uncomplicated boating experience both for lazy days on the sunbeds and when it is time for full water sports activity. Equally appreciated by the experienced boat owner and the one who gets his first boat.

# CREMO 55

DESIGNED BY PELLE PETTERSON

## THE RACING CLASSIC AND THE ULTIMATE SCHOOL BOAT

The C55 is the small sailboat that combines the agility of a dinghy and the stability and safety of a keelboat. This popular racing boat is also a superb school boat and a perfect day sailor on the countryside. You can sail the C55 completely by yourself thanks to its easy handling and lowering keel, so you can easily transport it on a regular trailer. You therefore do not need a boat berth.

Design by Pelle Pettersson.

FOR MORE INFORMATION ABOUT C55 RACING BOATS - SEE [CREMOBOATS.SE](http://CREMOBOATS.SE)

THERE ARE LINKS TO ARTICLES ABOUT C55 PUBLISHED BY THE SWEDISH SAILING ASSOCIATIONS.

C55 is recommended by the Swedish Sailing Federation.
